Put Your Project Title Here

List the members of your team here

Purpose of this project

Explain what the project aims to achieve here.

Goals and features

The project will achieve the following goals:

- Name goal 1 and explain it
- Name goal 2 and explain it
- Etc.

The project will achieve these goals by offering the following features:

- Name feature 1 and explain it
- Name feature 2 and explain it
- Etc.

Why this project is important

Justify the value of this project here.

Previous work and distinctiveness

Identify – with citations to the literature and websites – others' efforts to achieve some of the same goals. Then explain how your project differs from or improves upon those previous efforts.

Team qualifications

The team is qualified to achieve this project in the allotted time. Here are our qualifications:

- Name team member 1, explain what they will do, and describe why they are qualified to do that.

- Name team member 2, explain what they will do, and describe why they are qualified to do that
- Etc.

(Or, if you are working solo, say "I am qualified to achieve this project in the allotted time. Here are my qualifications:" and then explain them in a set of bullet points.)

References

List the references you cited in the "Previous work and distinctiveness" section in IEEE or APA format.
